About our Company

We '**Electrostar Cable**' certified company are one of the leading manufacturers of LT Power Cables, Control Cables, LT XLPE Cables, Aerial bunched Cables & Service Wires (Weather Proof Cables) with manufacturing facility located at Bawana Indl. Area, Delhi. We '**Electrostar**' cables manufacture a total quality product where our products have to undergo stringent testing norms at every stage of process from basic raw material right up to finished product.

'**Electrostar**' has well qualified team of devoted workforce at all levels (Viz, inward, Production, Testing, Dispatch etc.) to maintain the quality of the product manufactured strictly as per IS and customer specifications. In addition to this we also get our cables type tested for NABL accredited laboratory on periodic basis. We manufacture following ISI Marked Cables.

PRODUCT RANGE

S.No.	DESCRIPTION	SIZE & RANGE	BIS STANDARD
1	1.1 KV XLPE Insulated & PVC Sheathed Aluminium/Copper Armoured/Unarmoured Power/Control Cable	Single Core 1.5 Sq. mm to 1000 Sq. mm Copper Control Cable 1.5 & 2.5 Sq. mm upto 61 Core Multi Core 4 Sq. mm to 400 Sq. mm	IS :- 7098 (Part-I): 1988 
2	1.1 KV PVC Insulated & Sheathed Aluminium/Copper Armoured/Unarmoured Power/Control Cable	Single Core 1.5 Sq. mm to 1000 Sq. mm Copper Control Cable 1.5 & 2.5 Sq. mm upto 61 Core Multi Core 4 Sq. mm to 400 Sq. mm	IS :- 1554 (Part-I): 1988 
3	660/1100 Volts PVC Aluminium/Copper Cable	Single Core & Round Flexible Cable 1.5 Sq. mm to 400 Sq. mm	IS : 694/2010 
4	1.1 KV Aerial Bunched Cable	Single Core 25Sq. mm to 150 Sq. mm + Messenger 3 Core 16 Sq. mm to 150 Sq. mm + Messenger + Street Light 4 Core upt to 150 Sq. mm + Messenger + Street Light	IS : 14255/1995 

Cable can be custom designed and manufactured for special requirements such as Tunnel application, Metros, High speed train, Dedicated freight corridor, Oil and Gas, Industry Mining, Coastal Road, Airport, Data Center, Underground and elevated tunnel ventilation project etc.

ATTRIBUTES

High quality electrical wiring is like the veins in a human body, the perfect lifeline of any building. Now more than ever before, we need wires that carry ensure power efficiency, deliver greater protection, and are planet-friendly too, Electrostar Cable is the answer to this search. The result of Electrostar relentless pursuit to make lives easier and safer.

Electrostar Wire & Cable meet stringent European norms in environmental sustainability and cable safety.

Electrostar Wires & Cables distinct features make it a one-on-a-kind product:

99.9%
PURE COPPER

99.9% PURE COPPER - PUREST TO THE CORE

At the core of Electrostar Cable is the highest purity Electrolytic Grade Copper as against lower grade copper used in ordinary cables that offer poor conductivity. With greater than 100% conductivity as per IACS (international Annealed Copper Standard), the energy losses are minimal resulting lower power bills.

PURE
PVC

PURE PVC INSULATION

Pure, superior-grade Virgin PVC resin and compounding ingredients are used to produce and tailor-made PVC compound for each type of cable that has higher insulation resistance, thermal stability, and exceptional fire retarding properties. The purity inside ensures safety, reliability and long cable life.

TRIPLE-LAYER INSULATION FOR TRIPLE PROTECTION

Electrostar Cables come with a unique triple layer insulation to ensure three times the protection a one-of-a-kind feature unique to Electrostar.

TEMPERATURE RATING

The base layer consists of temperature rating as against the 70°C to 160°C (to conductor temperature for short circuit) of any ordinary cable. The middle and top layer are exceptionally flame retardant (FR) / FRLS / ZHFR. Electrostar thus ensures Triple protection of your life and property.
